Pricing Example: Pricing is the price for EACH subject or different card getting the specific number of Prints stated in the left column. If you have 5 different subjects, people or images, take the price for the number of prints you want for each subject (minimum is 500) and multiply by 5 to get your total. For example, if your 5 subjects are getting 1,000 Prints Each, multiply \$129.00 X 5 to get your total of \$645.00 (Plus Shipping) The minimum number of prints you can receive for one subject is 500.
